PROFESSIONAL SUMMARY

Frontend-focused Software Developer with more than three years of experience building responsive and user-centric web applications using Next.js, React, TypeScript, and modern JavaScript. Skilled in translating designs into performant UI components, managing application state, and integrating frontend systems with RESTful APIs. Strong understanding of full-stack workflows with experience collaborating on backend services using Django and REST frameworks. Proven ability to debug complex issues, optimize performance, and deliver clean, maintainable code in fast-paced environments.

EMPLOYMENT HISTORY

Junior Backend Developer, Vashcorp Inc., Remote

10/2023 - 10/2025

- Developed, maintained, and optimizing backend systems to ensure seamless integration with front-end applications.
- Conducted unit testing and functional testing to ensure the reliability and robustness of the developed systems.
- Performed server maintenance tasks, ensuring optimal performance and security.
- Collaborated with other team members and stakeholders to understand requirements, provide technical insights, and deliver solutions that align with the job's objectives.
- On an as-needed basis, tasked to undertake frontend work using Next.js or other relevant technologies.

Junior Front-End Developer, HOMEQUBE, Remote

03/2023 - 10/2023

- Served as a Front End Developer for a blockchain-based e-commerce website.
- Developed and maintained the e-commerce website, ensuring a seamless user experience.
- Created and managed the mobile app version of the blockchain e-commerce platform.
- Conducted comprehensive unit testing for both the website and mobile app to ensure high quality and optimal performance.

Freelance Web Developer, Remote

12/2020 - 03/2023

- Designed, implemented, and enhanced backend systems using Django, ensuring seamless integration with React and WordPress front-end applications.
- Developed and maintained RESTful APIs, supporting scalable and secure data exchange between client-facing interfaces and backend services.
- Performed unit and functional testing to ensure high system reliability, performance, and code quality.
- Managed server maintenance and deployment, optimizing application performance, availability, and security.
- Collaborated closely with clients and stakeholders to gather requirements, provide technical guidance, and deliver solutions aligned with business goals.
- Built and maintained responsive front-end components using React.js and modern JavaScript frameworks as needed.
